Job Portal

(Asp.Net MVC4 based Job Script)

Welcome

Welcome to **Job Portal**!
Job Portal is developed in Asp.Net MVC4 with MSSQL DB.

Now a day's running Jobsite script is one of the most revenue making methodologies in internet business. Coderobotics provides complete solutions for Asp.Net MVC4 based Jobsite script.

Ready-made Jobsite script comes with many powerful inbuilt features. It provides complete Jobsite solutions for companies or agencies who are willing to start an online recruitment service or planning to provide an online platform where jobseekers and employers can interact with each other in terms of job search and resume search.

Start's your own jobsite with our Asp.Net MVC4 Jobsite script. It is developed in Asp.Net MVC4 and supported by a MSSQL database.

Frontend

Registration modules, Member login features, Search job module, Saved Jobs and etc.
