

Tailoring App

(ERP for Tailor Application Management)

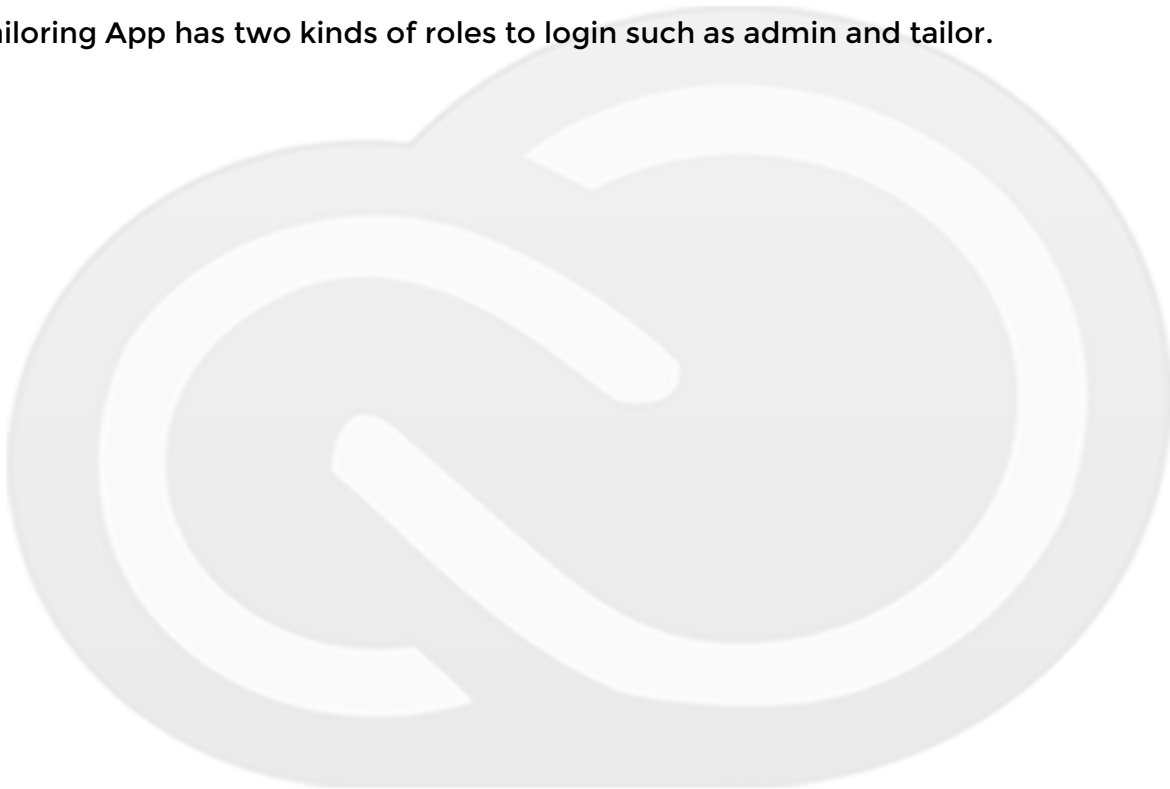

Welcome

Welcome to PHP based ERP for **Tailoring Management System!**

Tailoring App software is suitable for the tailors and the fashion designers to help them to keep the database of their clients and their orders, measurements styles, payments and their references from them. Tailoring App is sending notifications to the customer about their orders, delivery status via E-Mail/ SMS. It supports multiple languages.

Tailoring App has two kinds of roles to login such as admin and tailor.

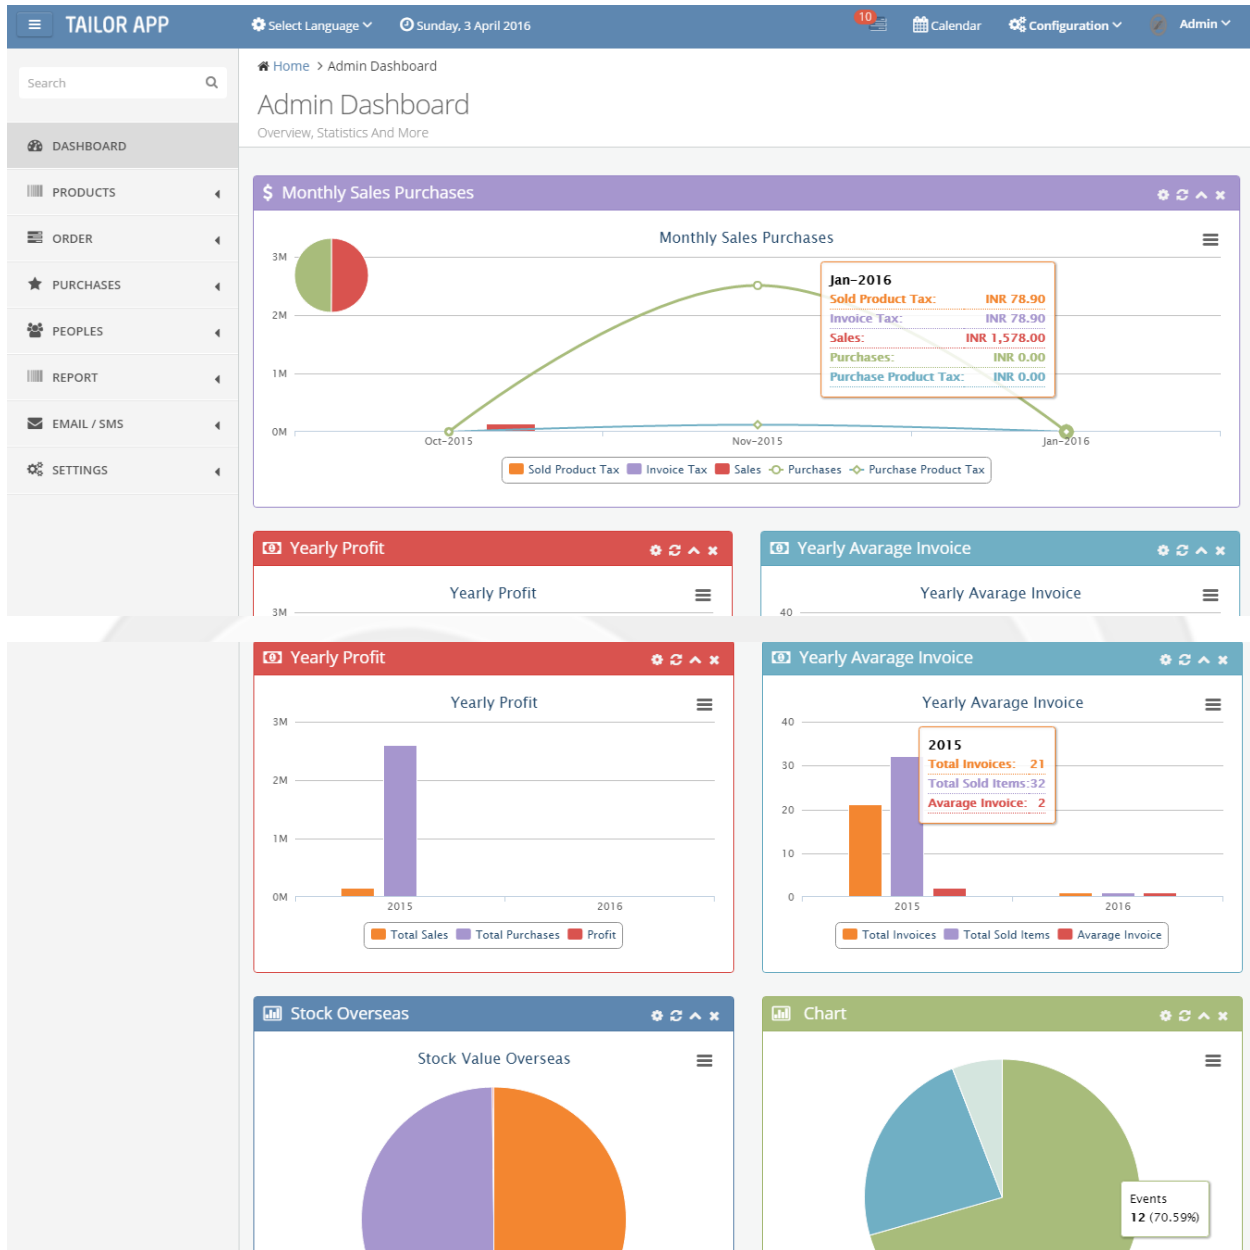

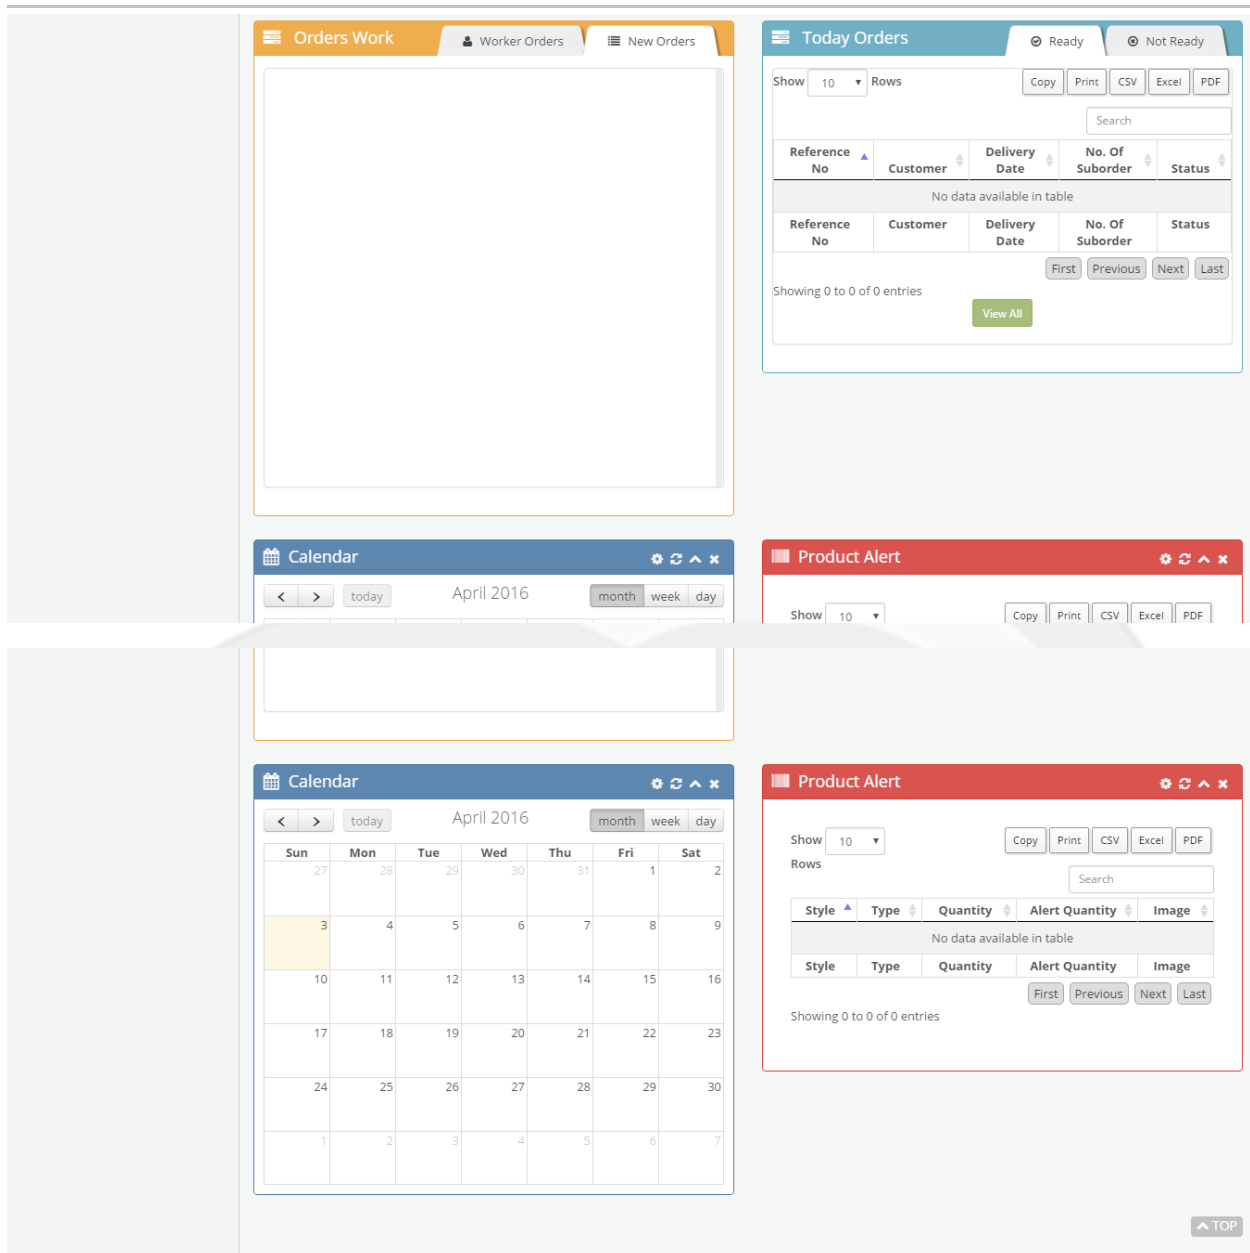

1 | ADMIN LOGIN

Admin user is able to manage complete details of following:

- Dashboard
- Products
- Cloth details
- Manage Customer Orders
- Track Order
- Order Payment
- Order Configuration
- Purchase Details
- Manage Employees, customers and suppliers
- Reports (Order report, Product alert, Purchase report, Worker report, transaction reports and etc)
- Email/ SMS
- Settings

DASHBOARD

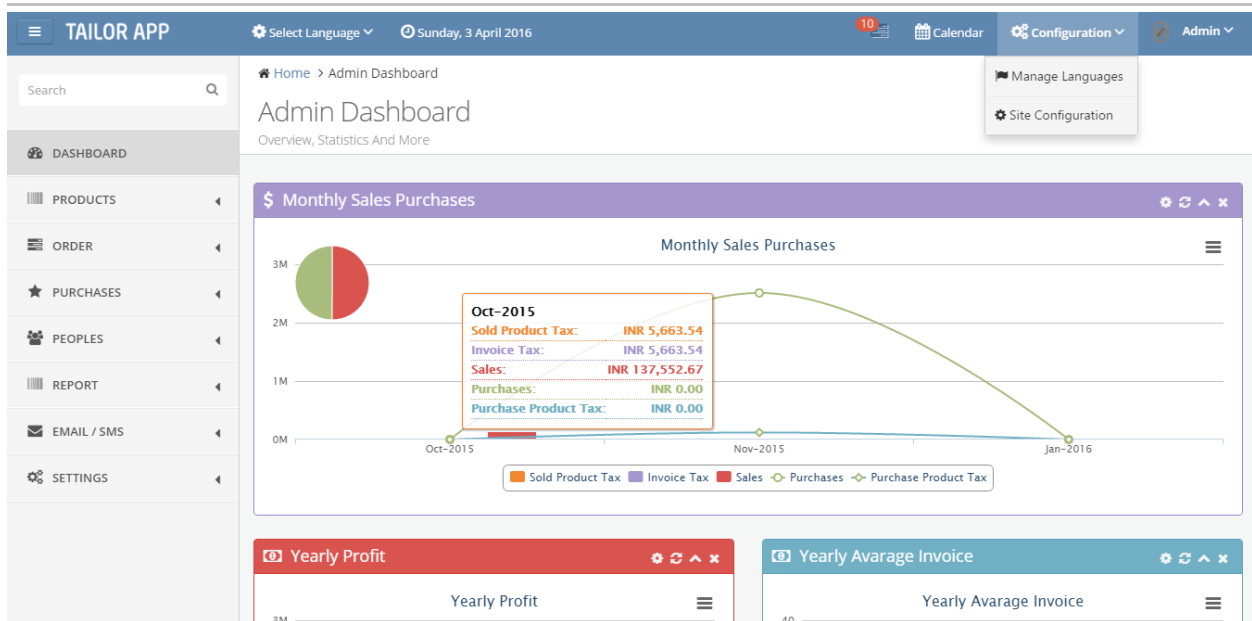

The screenshot displays the Tailoring ERP interface with several modules:

- Orders Work:** A module with tabs for 'Worker Orders' and 'New Orders'. The main area is currently empty.
- Today Orders:** A module with tabs for 'Ready' and 'Not Ready'. It features a table with columns: Reference No, Customer, Delivery Date, No. Of Suborder, and Status. The table is currently empty, displaying 'No data available in table'. Navigation buttons include 'First', 'Previous', 'Next', and 'Last'. A 'View All' button is also present.
- Calendar:** A module showing a calendar for April 2016. The view is set to 'month'. The calendar grid shows dates from 27 to 7.
- Product Alert:** A module with a table for product alerts. The table has columns: Style, Type, Quantity, Alert Quantity, and Image. It is currently empty, displaying 'No data available in table'. Navigation buttons include 'First', 'Previous', 'Next', and 'Last'. A 'View All' button is also present.

CONFIGURATION

MANAGE LANUGAGES

The screenshot shows the 'Manage Languages' page in the Tailor App. It features a 'Language List' table with the following data:

S No	Language	Action

The screenshot displays the 'Send Email' configuration interface within the Tailor App. The top navigation bar includes 'TAILOR APP', 'Select Language', 'Sunday, 3 April 2016', and utility icons for notifications, calendar, configuration, and admin. The left sidebar menu lists various application sections, with 'EMAIL / SMS' and 'SEND EMAIL' highlighted. The main workspace contains the 'Send Email' form, which includes a template selection dropdown, input fields for email address, BCC, and subject, and a file attachment selector. Two rich text editors are provided for composing the message content, each with a comprehensive toolbar for text formatting and alignment. A 'Send Email' button is positioned at the bottom of the form area.

CALENDAR

The screenshot shows the Tailor App interface with the Calendar module selected. The top navigation bar includes 'TAILOR APP', 'Select Language', 'Sunday, 3 April 2016', and a notification icon with '10'. The left sidebar contains menu items: DASHBOARD, PRODUCTS, ORDER, PURCHASES, PEOPLES, REPORT, EMAIL / SMS, and SETTINGS. The main content area displays the 'Calendar' page with a monthly view for April 2016. The calendar grid shows days from Sunday to Saturday, with the 3rd of April highlighted in yellow. Navigation controls for 'today', 'month', 'week', and 'day' views are visible at the top of the calendar widget.

This screenshot shows the same Tailor App interface as above, but with a modal dialog box open over the calendar. The dialog box is titled 'Event Title:' and contains a single text input field. At the bottom right of the dialog are 'Cancel' and 'OK' buttons. The calendar in the background is dimmed, and the 3rd of April remains highlighted.
